EDUCATION

2019 **Coding Boot Camp** at _nology (Bristol, England)

Front-End Developer Course that focused on JavaScript and its application. The course has solidified the fundamentals of JavaScript into my abilities, as a key foundation. From there, I have used React for most of my projects, and experimented with corresponding Libraries and frameworks. The boot camp incorporated a live client project, where our team pair-programming, used a GitHub-Flow Structure and followed an Agile Work Structure.

2017 **Bachelor of Commerce** at the University of Cape Town (Cape Town, South Africa)

This was a business Management Degree, with a focus in marketing. This was research and statistically intensive, and provided insight into both consumer and business behavior.

2010 **International Baccalaureate Diploma** at St John's College (Harare, Zimbabwe)

DENISE STUBBS

- 2008** **Cambridge IGCSE** at Chisipite Senior School (Harare, Zimbabwe)
- 2019** **Google Analytics For Beginners** with the Google Analytics Online Academy
Included basic campaign and conversion tracking.
- 2016** **200 Hour Yoga Teacher Training** at Vimoksha Yoga (Goa, India)

WORK EXPERIENCE

- Apr 2017 – May 2019** **Remote Office Manager** at Mectrig Trading (Cape Town, South Africa)
I set up the South African branch of a Zimbabwean Logistics company, while finishing my degree. I managed the day to day running from the accounting to being the point of contact for the company. When I immigrated to the UK, I was able to work remotely while passing the role on.
- Nov 2017 – May 2019** **Care Assistant** at Christies Care (Suffolk, United Kingdom)
A live-in position assisting people of all ages and disabilities across the UK, with a broad role, that also gave me the chance to explore the UK and learn about the various cultures across the British Isles.
- Jan 2012 – Oct 2017** **Au-Pair** Vat Van Donk family, Simpson family (Cape Town, South Africa)
- Jan 2011 – Jan 2012** **Waitress** Bon Fromage (Cape Town, South Africa)
- Jan 2009 – Dec 2010** **Social Worker Assistant (voluntary)** at Child Line (Harare, Zimbabwe)

ABOUT ME

I am completing an intensive Coding Boot Camp, learning to be a Front-End Web Developer. I am also passionate about people – understanding why people act, react, and make decisions is what drives me. Overall, I want to marry my marketing skills with my development skills, to create brands with a powerful digital presence, and ideally benefit society.

I love painting, art, books, sewing, and history. In 2016, I went to India and trained as a traditional Hatha Yoga Instructor. I have always loved sports, and exploring the outdoors, and have recently started surfing. When I was in school, I represented Zimbabwe in water polo and hockey. Overall, I would call myself a team player who loves the camaraderie of working with people.

Originally from Zimbabwe, I went to university in South Africa, and more recently explored the length and breadth of the British Isles, before making Bristol my home. My ancestry visa gives me unlimited working rights in the UK.
